Contact No: +8801906373908

Address: Kushtia, Khulna, Bangladesh

EDUCATION

Khulna University of Engineering & Technology
Master of Science in Computer Science & Engineering

Jul 2026 – Present
Khulna, Bangladesh

Bangladesh Army University of Engineering & Technology
Bachelor of Science in Computer Science & Engineering

Jan 2022 – Jan 2026
Qadirabad Cantonment, Natore

PROBLEM SOLVING ACTIVITIES

- Codeforces: (Dont_Cry), Highest Rating: 1430, Specialist, Problems Solved: 1080+.
- LeetCode: (Hafizahmed_789), Highest Rating: 1557, Problems Solved: 410+.
- Active Contributor: Regularly solve challenges on CSES, Beecrowd, HackerRank, and LightOJ.

I have solved over 1,800 data structure and algorithm problems and participated in 60+ online and 10+ LAN coding contests. [\[statistics\]](#)

ACHIEVEMENTS & AWARDS

- ICPC Dhaka Regional Preliminary 2024 (solved 3/8 problems) and 2023 (solved 2/8 problems).
- MIST LAN Contest (IDPC), solved 4 problems and ranked 23rd out of 84 teams.
- Champion at Mindstorm 5.0 (BAUET LAN Contest) among 70 teams, 1st Runner-up at Mindstorm 4.0 among 60 teams, and 2× Champion at Intra BAUET Programming Contest (BAUET LAN Contest).

EXPERIENCE

Intern Software Developer | Pentester Space (Feb 2026 – Jul 2026)

- Engineered secure, scalable backend services using **C#** and **ASP.NET Core**, applying the **Repository Pattern** and core **system design** principles, while implementing robust **API security** and real-time communication via **SignalR**.
- Optimized infrastructure and application performance by utilizing **Redis** for caching, **MinIO** for object storage, and **Hangfire** for background processing, alongside containerizing deployments with **Docker** and monitoring system health via **Grafana**.

Trainee | Brain Station 23 PLC (Jan 2025 – Feb 2025)

- Developed "VitaCraft", a dynamic CV generator web application, gaining practical experience in enterprise web development and scalable application building.
- Built using **ASP.NET Core** (Web API), **JavaScript**, Bootstrap, HTML/CSS.
- Applied **Repository Pattern**, **API security**, **rate limiting**, integrated email services.

PROJECTS

- **Design and Implementation of OBE Framework** | *C#, ASP.NET Core, MySQL, JavaScript*
Web-based solution that automates PO/CO mapping and result analysis for academic quality assurance, eliminating manual outcome tracking issues. Built with **ASP.NET Core** using a **modular monolithic architecture** and **Repository Pattern**, following **system design** principles. Includes secure **REST APIs** with **JWT authentication**, role-based access and **API rate limiting**, along with automated CO–PO attainment, reporting, caching (**Redis**), structured logging, and optimized database queries for performance.
- **Hall Meal Management System - BAUET** | *C#, ASP.NET Core, MySQL, JavaScript* [\[Github\]](#) [\[Demo Video\]](#)
Web-based solution for meal scheduling, cost calculation, automated notifications and billing, field-tested at BAUET Hall for 3 months. Built with **ASP.NET Core** using a **modular monolithic architecture**, with secure **REST APIs** (**JWT authentication**, role-based access, and **rate limiting**), caching (**Redis**), structured logging, and planned fingerprint-based token verification.
- **VitaCraft - Dynamic CV Generator** | *C#, ASP.NET Core, MySQL, JavaScript* [\[Github\]](#) [\[Live Website\]](#)
Engineered a Dynamic CV Generator application using **C#**, **ASP.NET Core**, addressing the complexity of real-time CV rendering, template customization, and consistent formatting. Developed a responsive live preview system that updates instantly as users modify their information, significantly improving the user experience.

TECHNICAL & PROGRAMMING SKILLS

- **Languages:** C, C++, C#, JavaScript (ES6+), TypeScript, Python.
- **Backend & Databases:** ASP.NET Core (Web API), C#, MySQL, Redis.
- **Frontend & Web:** HTML5, CSS3, JavaScript, TypeScript, Bootstrap.
- **Tools & Platforms:** Git/GitHub, Docker, MinIO, Hangfire, Grafana, VS Code, Cursor, NPM, macOS.
- **Core Competencies:** Data Structures & Algorithms, Competitive Programming, System Design, REST APIs.

VOLUNTEER & LEADERSHIP EXPERIENCE

President, BAUET Computer Society (Jun 2025 – Nov 2025)

Organized **BAUET Techfair-2025** and multiple intra-university programming contests, managing event logistics, problem setting, and contest coordination. Guided junior students in C/C++, Data Structures & Algorithms (DSA), coordinating contests across LAN and online platforms.
